

To  
Serbian Sport for All Association

Mr President Verizar Djeric  
Mr Secretary General Jezdimir Marsenic

Copenhagen 17 April 2010

Dear Verizar Djeric and Jezdimir Marsenic

I would like to thank the Serbian Sport for All Association very much for hosting the PATHE Conference in Belgrade the 22-25 April 2010.

I have learned from the participants and the ISCA project team, that it was a very successful conference and that the very good preparation and hosting efforts contributed to the results of the conference.

The conference marked, that this first health project carried out by Sport for All organizations and financially supported by the European Commission directorate for Health and Consumer Protection, is coming to an end. The Serbian Sport for All Association made its valuable contribution to the project both by your active participation and by hosting the final event of the project.

The final conference taking place in Belgrade also illustrated that Europe is not only the countries within the European Union, as well as it underlined our cooperation, which has developed over that last 10 years.

Once again, thank you for contributing to the PATHE project and the European Sport for All cooperation by hosting the PATHE Conference in Belgrade.

Yours sincerely,

Mogens Kirkeby, president
